**Palm Beach, Fla.**—The Florida Department of Health in Palm Beach County (DOH-Palm Beach) is informing residents of a confirmed human case of locally-acquired dengue fever. DOH-Palm Beach and Mosquito Control Division of Palm Beach County are coordinating surveillance and prevention efforts by surveilling and treating the affected area.

DOH-Palm Beach reminds the community to avoid being bitten by mosquitoes by taking these [basic precautions](#).

The Department continues to conduct statewide surveillance for mosquito-borne illnesses, including West Nile virus infections, Eastern equine encephalitis, St. Louis encephalitis, malaria, chikungunya, and dengue. Residents of Florida are encouraged to report dead birds to the [Florida Fish and Wildlife Conservation Commission's](#) site.
