Florida Department of Health, PBC
Division of Environmental Public Health
Air and Solid Waste Program
800 Clematis Street, 4th Floor
West Palm Beach, FL 33401
Fax: (561) 837-5295

Name of agency conducting the fire training: _____

Contact person and phone number: _____

Location and address of the training burn site: _____

Scheduled burn date: _____

(Notice must be postmarked / received 10 working days before burn start date)

Name of the fire control agency having jurisdiction for this training activity: _____

Revised 1/2/2018

The following list is intended for your use to ensure that all items have been addressed in order to receive approval to conduct a fire training exercise on any structures.

In addition to normal permitting, an asbestos survey of representative materials must be done prior to commencement of the renovation, demolition, or burn to assure that materials having asbestos are either not present or have been properly removed and disposed.

- **FDEP Notice of Demolition or Asbestos Renovation** form submitted for burning any structure. This form certifies that no regulated asbestos is present or that all regulated asbestos including Category I and Category II non-friable asbestos-containing material will be removed prior to burn.

This notification shall be submitted to the Florida Department of Health, PBC at least **ten (10) working days** before asbestos stripping or removal work or any other activity begins.

Asbestos-containing materials may include, but are not limited to:

- | | | |
|---------------------------------------|------------------------------|---------------------|
| - wall plaster or stucco | - mastics (glues, adhesives) | - insulation |
| - ceiling treatment (popcorn ceiling) | - vinyl floor tiles | - ceiling tiles |
| - roofing materials | - wire insulation | - pipe wraps |
| - drywall and joint compounds | - siding (cement panels) | - fire doors |
| | - window glazing/caulking | - linoleum flooring |

All hazardous materials that would endanger the health and safety of the firefighters, the public and the environment must be removed.

Items that must be removed prior to the burn include, but are not limited to:

- | | | |
|---|---------------------|--------------------|
| - vinyl siding, flooring, products | - batteries | - draperies |
| - mercury containing materials | - waste oil | - linoleum |
| - asphalt shingles | - appliances | - clothing |
| - electrical switches | - carpet & foam | - furniture |
| - air conditioning equipment | - plastic materials | - smoke alarms |
| - exposed PVC plumbing | - exposed wiring | - hazardous wastes |
| - foam cushions, mattresses etc. | | |
| - fiberglass materials (tubs, showers, etc.) | | |
| - fluorescent lighting, ballasts and transformers | | |
| - stored chemicals (pesticides, herbicides, fertilizers, paints, glues, cleaners, tars, etc.) | | |

Has an asbestos building survey been conducted and an **FDEP Notice of Demolition or Asbestos Renovation** form been submitted to the Florida Department of Health, PBC? [] Yes [] No

Is the proposed building/structure free of asbestos-containing materials at this time? [] Yes [] No

Please contact the Florida Department of Health, PBC at **(561) 837-5974** if you have any questions concerning open burning or on the applicable provisions of 40 CFR Part 61, Subpart M, National Emission Standards for Asbestos (Federal Asbestos Regulation).

This approval does not exempt you from complying with any other federal, state, or local regulation. Contact your local municipal fire authority to determine what rules may apply. Also, be aware that disposal of any solid or hazardous waste remaining from this activity is the responsibility of the property owner.

I certify that the training burn will be conducted in accordance with the National Fire Protection Association's document "Standard on Live Training Evolutions, 2002 Edition (NFPA 1403)" and in compliance with Rule Chapter 62-256.700(4).
